- PostgreSQL Certification by Simplilearn
- Python Certification by Bluegen Solutions

PROJECTS

StudyBuddy.

chatroom application | django

- Dynamic chatroom application using Python Django
- Implemented RESTful APIs and CRUD functionality to enable users to create, update, and delete chatrooms effortlessly.
- Designed an intuitive user interface that facilitates seamless room joining, engaging discussions, and community connection across diverse topics

Epistle

blogging website | django&react

- Feature-rich blogging website using React for dynamic frontends and Django for robust backends.
- Implemented user authentication, profile updating, blog creation, editing, updating, and deletion, ensuring a seamless user experience.
- Designed an attractive UI with topic-based filtering, allowing users to easily browse and view posts by topics.

ANtio

Social Media Platform | django

- Social media platform with a Python Django
- Implemented user authentication, profile management, post creation, dynamic feed updates, post liking, user following, and personalized feed showing posts only from followed users. Users can also view profiles and discover new users to follow.
